# Bingo 37/38

Bingo 37 or 38 is for the player the same as traditional roulette. The difference is in determining of the game outcome. Instead of one ball launched on the wheel there are 37 balls in automatic electrically operated blower machine similar to what's used in state lotteries. After blowing and mixing all balls, one ball is randomly picked out to determine the game outcome, which is announced after automatic reading.

Voltage: 230V, 50Hz; 120 V, 50-60 Hz • Maximum power consumption: 1.100 W • Required fuse: 6 A slow (230V), 10 A slow (120 V) • Weight: 850 kg • Single gaming computer system Axiomtek • 19" LCD touch screen ELO • UPS system • Radio frequency ID cards support multi level access • Bill acceptors (JCM, MEI...) • Ticket printer (FUTURE LOGIC, ITHACA...) • Support for different coin acceptors and hoppers (NRI, ALBERICI, AZKOYEN, SUZO...) • Connection to different casino management systems (SAS 6.02) • GSM modem for remote call-back access • Mechanical counters (optional) • Mechanical random balls • Single or double zero • Multi-denomination betting • Fully optimisable via operator controlled menus • Easy transport and installation • Alternative colour combination • Easy access for maintenance

All dimensions are in millimetres.
